

AS THE SHIPS PASS IN THE NIGHT

© Belinda McArdle 2009

As the ships pass in the night
As the ships pass in the night
As the windmill's still in flight
Turning on tides
We'll be alright
As the ships pass in the night
pass in the night

Room still around us, love within
Love still abounds as we're floating
Room still around us, love within
Love still abounds as we're floating
As the ships pass in the night
pass in the night

As the ships pass in the night
As the ships pass in the night
I look up for a sign
To tell me it's fine
One stars flies by
As the ships pass in the night
As the ships pass in the night

Love still within, we're not without
Love's still around As we float about
Love still within, we're not without
Love's still around As we float about
As the ships pass in the night
pass in the night

And the siren will call me back
And my heart's ken will keep me on track
And the siren will call me back
And my heart's ken will keep me on track
As the ships pass in the night
pass in the night

As the ships pass in the night
As the ships pass in the night
With the full moon in the sky
Smiling
As the ships pass in the night
pass in the night

As the ships pass in the night
As the ships pass in the night
As the windmill's still flight
Turning on tides
We'll be alright

Siren oh's.....
