

**BESIDE ME**

© Belinda McArdle 2016

**Tuck in here beside me - just fall away  
Not for forever - just for one day  
Tuck in 'round me soundly - here in my nest  
Solitude is often the best - way - to - be - Quietly  
And you'll carry on beautifully for this little rest**

**Who** - hears the things you can't easily say aloud?  
**Who** - really sees you and tells you that they're proud?  
**Who** - shakes their head for you when it isn't fair?  
**Who has your set of records** - from way on, way back there?

**Tuck in here beside me - just fall away  
Not for forever - just for today  
Tuck in 'round me soundly - here in my nest  
Solitude is often the best - way - to - be - Quietly  
And you'll carry on beautifully for this little rest**

**Who** knows if our future plans are really just a guess?  
**Who** - tells if our stories change - each time we get dressed?  
**Who** - believes in more than the here and now?  
**Wh-o can dream it lasts** while the forces will allow?

*You are commotion and a whirlwind, you're a spinning top  
A raging storm, a landslide, for a moment- let it stop*

**Tuck in here beside me - just fall away  
Not for forever - just for today  
Tuck in 'round me soundly - here in my nest  
Solitude is often the best - way - to - be - Quietly  
And you'll carry on beautifully for this little rest**
