

**BUTTERFLY**

© Belinda McArdle 2015

I'll figure it out, I'll figure it out  
With certainty, I'm certain  
there'll be no more doubt  
I'll figure it out, I'll figure it out

I'm going away, you know I'll be back  
The answer's along the way  
somewhere down the track  
You know I'll be back, You know I'll be back

*I'm not scared – As steady as a song  
I will go – But I will come home  
You know I'll come home*

**Before the butterfly can go on to another life  
She wraps herself, she wraps herself  
she wraps herself up  
Before the butterfly can go on to another life  
She wraps herself, she wraps herself  
she wraps herself up  
She wraps\_\_ wraps herself up**

I am growing my wings, still growing my wings  
I tickle chance and I wonder in  
magic wellsprings  
I'm growing my wings, I'm growing my wings

I listen out for the truth to tap at my heart  
I listen out through my skin, it sets me apart  
It taps at my heart  
Truth taps at my heart

*I'm not scared – As steady as a song  
I will go – But I will come home  
You know I'll come home*

**CHORUS**

I'll figure it out, I'll figure it out  
With certainty, I'm certain  
there'll be no more doubt  
I'll figure it out, I'll figure it out
