

## FIND YOUR LITTLE LIGHT

© Belinda McArdle 2012

There was a little lost lamb in the valley long ago (**long ago**)  
A shepherd came and found the lamb and led him home (**led him home**)  
All the people couldn't see for searching was their goal (**their goal**)  
Now a thousand little lights still try to find their souls -

### **Souls**

Do you really feel like a motherless child? (OOoooo)  
Do you really feel like a motherless child? (Ooooo)  
Way by and by (way by and by)  
You will find your little light  
And **dance about your life**

Now the troubles of the world will never all be done (**all be done**)  
And dyin' easy won't come for everyone (**won't come**)  
But you **can rock my soul** if you sing my song (**my song**)  
You could rock your soul open

### **Hey**

CHORUS

**Home comin' home**  
**Home is closer than you think**  
**Wading in the water's not the only way to drink from the cup of life**  
**You gotta find your little light**

CHORUS
