

EXHALE Belinda Densley

Tiny bells toll on a lost evening song and our valley smells of rain
Sweet breeze barely tickling - yet carries a wisp of change
And the dragonfly is here - She draws my senses near
Exhale

Tiny wings dashing as soon as a fresh splash of water meets their pool
Darting, and wondering eyes hope for fat drops soon
And the veil is sheer tonight - We pull together tight
Exhale - Exhale

Tiny reflections gather momentum as nature draws within
Clouds roll - so slowly - when you need them to give in
Is it nearly time to shout? - Breathe in to blow it out?
Exhale – Exhale - Exhale

THE HOUSE THAT NEVER WAS Kasey Chambers

Got no nails in the floor - Got no hinges on the door
Empty frames on the walls - Ain't no ghost in the halls

You can build with earth and stone - Make a place of your own
But the house that has no love - Is the house that never was

Got no dog on the stair - Got no car in the shed
Ain't no num- ber on the sign - Ain't no bird up on the power line

You can build with earth and stone - Make a place of your own
But the house that has no love - Is the house that never was

Wind don't blow through the trees - No one comes and no one leaves
You can live anywhere - But it don't mean you're really there

I'LL FLY AWAY Allison Krauss Gillian Welch

When the shadows of this life have gone - I'll fly away
Like a bird from these prison walls I'll fly- I'll fly away

**I'll fly away, oh glory
I'll fly away in the morning
When I die, Hallelujah by and by
I'll fly away**

Oh, how glad and happy when we meet - I'll fly away
No more cold iron shackles on my feet - I'll fly away

Just a few more weary days and then - I'll fly away
To a land where joys will never end - I'll fly away

UP IN LIGHTS Belinda McC Ardle

**I'm up in lights, *I'm up in lights, I'm up in lights
I'm up in lights, *I'm ^up in lights, I'm up in lights**

My melting heart and I go out to dance (go out to dan-ance)
We both know I deserve this second chance (oo – oo)
I never chased my wildest dreams I'd barely seen them
Destiny was just a version of being naïve then
You know I fell hard- Struck with love and covered in scars
But rung by rung, I've hung on to see

**I'm up in lights, *I'm up in lights, I'm up in lights
I'm up in lights, *I'm ^up in lights, I'm up in lights**

I had been caught in the slipstream with everyone else (go out to dan-
ance)

Gathered and rounded up by a force unto itself (oo-oooo)
Once I loosened the slack – There was no going back
My world gave way, day by day for me

**I'm up in lights, *I'm up in lights, I'm up in lights
I'm up in lights, *I'm ^up in lights, I'm up in lights**

INSTRUMENTAL (with oo's as directed)

I'm up in lights, *I'm up in lights, I'm up in lights

ALL MY LITTLE WORDS Magnetic Fields

You are a splendid butterfly - It is your wings that make you beautiful
And I could make you fly away - But I could never make you stay

You said you were in love with me - Both of us know that that's impossible
And I could make you rue the day - But I could never make you stay

Not for all the tea in China - Not if I could sing like a bird
Not for all North Carolina - Not for all my little words
Not if I could write for you - The sweetest song you ever heard
It doesn't matter what I'll do - Not for all my little words

Now that you've made me want to die - You tell me that you're
unboyfriendable
And I could make you pay and pay - But I could never make you stay

Not for all the tea in China - Not if I could sing like a bird
Not for all North Carolina - Not for all my little words
Not if I could write for you - The sweetest song you ever heard
It doesn't matter what I'll do - Not for all my little words

SHALLOW Lady Gaga Bradley Cooper (A Star is Born)

Tell me somethin', girl - Are you happy in this modern world?
Or do you need more? Is there somethin' else you're searchin' for?

*I'm falling - In all the good times I find myself longin' for change –
And in the bad times I fear myself*

Tell me something, boy - Aren't you tired tryin' to fill that void?
Or do you need more? - Ain't it hard keeping it so hardcore?

*I'm falling - In all the good times I find myself longin' for change –
And in the bad times I fear myself*

I'm off the deep end, watch as I dive in - I'll never meet the ground
Crash through the surface, where they can't hurt us
We're far from the shallow now

In the sha – ha – sha-allow, In the sha-ha shaa-ha- allow
In the sha – ha – sha-allow - We're far from the shallow now

I'm off the deep end, watch as I dive in - I'll never meet the ground
Crash through the surface, where they can't hurt us
We're far from the shallow now

In the sha – ha – sha-allow, In the sha-ha shaa-ha- allow
In the sha – ha – sha-allow - We're far from the shallow now

Tell me somethin', girl - Are you happy in this modern world?

Falling Slowly

[Markéta Irglová](#)

I don't know you
But I want you
All the more for that
Words fall through me
And always fool me
And I can't react
And games that never amount
To more than they're meant
Will play themselves out

Take this sinking boat and point it home
We've still got time
Raise your hopeful voice, you have a choice
You'll make it now

Falling slowly, eyes that know me
And I can't go back
And moods that take me and erase me
And I'm painted black
Well, you have suffered enough
And warred with yourself
It's time that you won

Take this sinking boat and point it home
We've still got time
Raise your hopeful voice, you have a choice
You've made it now

A LITTLE BIT OF ME Melissa Etheridge

If you believed, if you tried - It could be enough to know you were alive
If you knew the truth it couldn't be denied - I
t would change the world enough that you might find

*That the world goes round and around and around –
And everybody walks on common ground
We gotta pull together if we're gonna pull through –
There's a little bit of me in a little bit of you
The world goes round and around and round - Everybody feels a little upside
down
No need to be afraid of anybody you see - There's a little bit of you in a little
bit of me*

**Nah nah nah nah nah nah nah in a little bit of me
Nah nah nah nah nah nah nah..... Nah nah**

Is it on the skin is it in the love - The things about each other that we're so
scared of
You can shake your head you can change your mind –
Either way you wake up inside yourself to find

*That the world goes round and around and around –
And everybody walks on common ground
We gotta pull together if we're gonna pull through –
There's a little bit of me in a little bit of you
The world goes round and around and round - Everybody feels a little upside
down
No need to be afraid of anybody you see - There's a little bit of you in a little
bit of me*

**Nah nah nah nah nah nah nah in a little bit of me
Nah nah nah nah nah nah nah..... Nah nah**

Oh.... lean to your left or lean to your right –
Look all around the room and every soul here tonight
Have a little bit of faith that everyone will see –
That all the good books in the world agree
There's a little bit of you in a little bit of me

FLYING BY

© Belinda McArdle 2016

The hours are long but the days are quick
We're making it up as we go from the thick of it

Humbling truths of our deepest needs
The ways of the world for you to learn, so much for you to teach me

**And it's flying by in the blink of an eye I don't want to fall asleep, I don't
want to let you boy out of my sight
And it's flying by in the blink of an eye I don't want to fall asleep, I don't
want to let you boy out of my sight**

We counted in days, then we counted in weeks
Now we're counting in months and far too soon, we will count in years

But time is a myth, this time is a gift
Time is everything, anything that we let it be

CHORUS

*I love you more and more the more you grow
And I hope you know 'cause I always show you*

CHORUS
